

INDIAN INFOTECH | ADVANCED BIOMETRICS

Indian AI-35

ENGINEERED FOR SECURE ACCESS.

An advanced biometric terminal with face, fingerprint, card, and password authentication, a 4-inch colour touch display, IP65 protection, and broad access-control communication interfaces.

**INDIAN AI-35**

INDIAN INFOTECH PRODUCT SOLUTION

IP65 FACE + FINGERPRINT TERMINAL

Reliable components for professional access-control installations.

PRODUCT OVERVIEW

An advanced biometric terminal with face, fingerprint, card, and password authentication, a 4-inch colour touch display, IP65 protection, and broad access-control communication interfaces.

IP65 PROTECTION

Waterproof and dustproof terminal construction.

FAST VERIFICATION

Face and fingerprint verification speeds below 0.5 second.

WIDE CONNECTIVITY

TCP/IP, Wi-Fi, BLE, Wiegand, RS485, and USB.

TECHNICAL SPECIFICATIONS

DISPLAY	4-inch TFT colour touch LED screen, 480 x 800
CAMERA	Binocular camera at 2MP
CAPACITY	5,000 users, face, fingerprint, cards; 200,000 transactions
AUTHENTICATION	Face / fingerprint / card / password
SPEED	Less than 0.35 sec face; less than 0.5 sec fingerprint
COMMUNICATION	TCP/IP, Wi-Fi, BLE 5.0, Wiegand, RS485, USB
POWER	DC 12V 3A optional
PROTECTION	IP65 waterproof and dustproof
DIMENSIONS	183 x 88 x 20.5 mm
TEMPERATURE	-5C to 45C
