ONE MODULE. MULTIPLE CONTROL FUNCTIONS.

The MB01 provides the essential control interface for secure door interlock applications, with flexible NO/NC logic and direct connections for common access-control components.

FLEXIBLE LOGIC

Built-in NO and NC functions support configurable door behavior.

EM LOCK READY

Direct connection for 12V electromagnetic locks.

STATUS INPUT

Door sensor and exit switch connections support coordinated release.

PRODUCT SPECIFICATIONS

PRODUCT MODEL	IND MB01
PRODUCT CODE	MB01
INPUT	12V DC
OUTPUT	12V DC
PRODUCT NAME	Door Interlock Card

CONNECTION CAPABILITIES

12V EM LOCK	Direct connection for 12V electromagnetic locks.
EXIT SWITCH	Dedicated port for easy unlocking from inside.
DOOR SENSOR	Integrated connection for a door sensor.
VOLTAGE	12V operational voltage and 12V input power supply.
