

INDIAN INFOTECH | SCALABLE SECURITY

Door Interlock System

SECURE ACCESS. SMARTER CONTROL.

A modular platform for secure interlock setups across 2, 3, 4, 6, and 8-door environments.

IND DL SERIES

ENGINEERED FOR

controlled movement

and dependable security integration.

DOORS 2-8

STATE NORMAL CLOSE

POWER 12V DC

SCALABLE BY DESIGN.

Add or remove interlock card modules as your site requirements change. The system combines door sensing, lock outputs, communication, status indicators, and emergency release.

SYSTEM CONFIGURATIONS

2 DOOR	IND201DL
3 DOOR	IND301DL
4 DOOR	IND401DL
6 DOOR	IND601DL
8 DOOR	IND801DL

CORE FEATURES

MODULAR SYSTEM

Easily scalable by adding or removing interlock card modules.

EMERGENCY MODE

Emergency override can release all doors through configuration.

LED STATUS

Red/green 5V outputs indicate locked or unlocked status.
