

INDIAN F 12 / SLAVE

REMOTE FINGER SENSOR

ENGINEERED FOR SECURE ACCESS.

A rugged RS485 fingerprint sensor that captures and transfers biometric samples to an access-control panel.

INDIAN F 12

INDIAN INFOTECH PRODUCT SOLUTION

IP65 • RS485 • OUTDOOR READY

Reliable components for professional access-control installations.

PRODUCT OVERVIEW

A rugged RS485 fingerprint sensor that captures and transfers biometric samples to an access-control panel.

RS485 CONNECTIVITY

Works with biometric access controllers.

FINGERPRINT CAPTURE

Captures and transfers fingerprint samples.

IP65 RUGGED BODY

Designed for all-weather durability.

TECHNICAL SPECIFICATIONS

COMMUNICATION	RS485 interface
PROTECTION	IP65 rugged structure
FUNCTION	Capture and transfer samples
INTEGRATION	Biometric access controllers
ENVIRONMENT	Indoor and outdoor use

SLAVE SENSOR

Connects to an access-control panel.

OUTDOOR READY

Suitable for demanding entrances.
