

INDIAN INFOTECH | HIGH-TRAFFIC ACCESS

IND F1000 SERIES

ENGINEERED FOR SECURE ACCESS.

A high-efficiency flap barrier turnstile engineered for speed, security, and durability in high-traffic indoor and outdoor environments.

**IND F1000 SERIES****INDIAN INFOTECH PRODUCT SOLUTION**

HIGH-EFFICIENCY FLAP BARRIER

Reliable components for professional access-control installations.

PRODUCT OVERVIEW

A high-efficiency flap barrier turnstile engineered for speed, security, and durability in high-traffic indoor and outdoor environments.

RAPID OPERATION

Brushless motor for fast opening and closing.

ANTI-TAILGATING

Infrared sensing supports secure passage control.

DURABILITY

Cold-rolled SPCC steel chassis and reliable motor design.

TECHNICAL SPECIFICATIONS

LANE TYPE	Single lane
LANE WIDTH	550 mm
LANE HEIGHT	1020 mm
BARRIER	Retractable PC flap
MOTOR	DC brushless
SPEED	Less than 1 second per movement
IR SENSORS	5 pairs
POWER	110/220 VAC, 50-60 Hz
INGRESS	IPX4
MCBF	5 million cycles
FLOW RFID/QR	30 per minute
FLOW FACIAL	15 per minute
